In re Application of

Yeatman et al.

Serial No. 09/444,711

Filed: November 24, 1999

For: MUTATED SRC ONCOGENE COMPOSITION AND METHODS

Group Art Unit: 1642

Examiner: Harris, A.

TECH CENTER 1600/2900

OCT 12 2001

RECEIVED

AMENDMENT AND RESPONSE UNDER 37 CFR §1.111

Commissioner for Patents  
Washington D.C. 20231

Sir:

This is a response to the Office Action mailed February 7, 2001. The following response is respectfully submitted.

Please amend the Application as follows:

**In the Claims**

**Please cancel Claims 1-28 without prejudice or disclaimer.**

**Please add the following new Claims:**

*(ab)*

29. (New) An isolated polynucleotide encoding a mutant c-Src protein, wherein the polynucleotide has a codon 531 which is a stop codon.

*(AT)*

30. (New) The isolated polynucleotide of Claim 29, comprising SEQ ID NO:1 or its complement.

31. (New) A recombinant construct comprising the polynucleotide of Claim 29 and at least one regulatory element.

32. (New) The recombinant construct of Claim 31, wherein the recombinant construct is an expression vector.
